

**POLICY RESOLUTION # 21 – Jonathan Association Board of Directors**

**DATE: April 12, 2016**

**RE: Chemical Treatment of Storm Water Collection Pond - Millpond**

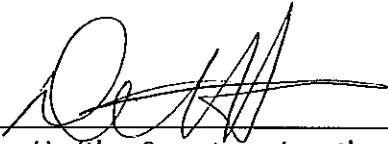

While acknowledging that:

1. The Jonathan Association has storm water collection ponds on Jonathan property; and,
2. Storm water collection ponds are not designed to be a landscaping features; and,
3. Storm water collection ponds are designed to protect lakes and rivers from pollution; and,

In addition to reaffirming that:

4. To help ensure that storm water collection ponds are able to work as designed, the Jonathan Association will not provide chemical treatment of these ponds; and,
5. Determination of the pond being a storm water collection pond will be at the discretion of the Jonathan Association;

The Jonathan Association Board of Directors resolves on this day (04-12-2016) to allow the Millpond Association to fund the chemical treatment of the storm water collection pond located on Parcel ID: 303400031 for a period of no more than five years. This period will begin on April 12, 2016 and expire on April 11, 2021. The treatment must be administered by a vendor that both Millpond and the Jonathan Association mutually agree upon. Payment must be made in full to the vendor by Millpond prior to any work being completed on Jonathan Association property.
